

Come What May

From Moulin Rouge!

Never knew I could feel like this • Like I've never seen the sky before • Want to vanish inside your kiss • Everyday I love you more and more • Listen to my heart can you hear it sing • Telling me to give you everything Seasons may change • Winter to spring • But I love you until the end of time • **Come what may • Come what may • I will love you • Until my dying day** • Suddenly the world seems such a perfect place • Suddenly it moves with such a perfect grace • Suddenly my life doesn't seem such a waste • It all revolves around you • And there's no mountain too high, no river too wide • Sing out this song and I'll be there by your side • Storm clouds may gather and stars may collide • But I love you until the end of time • **Come what may • Come what may • I will love you • Until my dying day**

Push

Words and Music by Sarah McLaughlin

Every time I look at you the world just melts away • All my troubles all my fears dissolve in your affections • You've seen me at my weakest but you take me as I am • And when I fall you offer me a softer place to land • **You stay the course you hold the line you keep it all together • You're the one true thing I know I can believe in • You're all the things that I desire, you save me, you complete me • You're the one true thing I know I can believe** • I get mad so easy but you give me room to breathe • No matter what I say or do 'cause you're too good to fight about it • Even when I have to push just to see how far you'll go • You won't stoop down to battle but you never turn to go • Your love is just the antidote when nothing else will cure me • There are times I can't decide when I can't tell up from down • You make me feel less crazy when otherwise I'd drown • But you pick me up and brush me off and tell me I'm okay • Sometimes that's just what we need to get us through the day •

The Other Side Of Me

Words & Music by Michael W. Smith & Wayne Kirkpatrick

If they were to write about the story of my life • They would have to mention you with every page they'd write • There's another side to every story told • If I were the ocean, You would be the shore • One without the other one would be needing something more • We are the shadow and the light • **Always love me • Never leave me now • Now you are the other side of me** • I have known the emptiness of feeling out of touch • And living life without you here would be living half as much • Cause I've a need that only you can fill • If love was mathematical, you'd understand the sum • To the heart's equation where one and one makes one • And lonely equals me minus you
